National Companies Donates \$25,000 in Home Furnishings

Orlando furniture bank receives hefty donation; FL families benefit

Belleview, FL 6/18/2007 - National Companies, a direct-seller of products and services, with hundreds of independent marketing directors in the state of Florida, made a large furniture donation through their furniture department, Team National Factory Direct.

A semi-truck full of multiple dining room sets and numerous complete living room sets of furniture were delivered on Tuesday, June 5, to The Mustard Seed, a furniture bank in Orlando. The donation also included a wide array of home furnishings. The complete donation totaled \$25,800 worth of furniture.

"We cannot begin to express the excitement of watching the truck pull in with all the wonderful gifts of new furniture that has been donated to The Mustard Seed free furniture bank. It always gives us such great pleasure to see the faces of the individuals and families as we load up their trucks with the beautiful furniture National Companies has given to us," said Carol Kane, founder and president of The Mustard Seed. "National Companies has helped to change peoples' lives. Without their support, families would be left in empty rooms and sleeping on the floor. Many, many blessings to them for their generosity to those less fortunate."

The dining room sets included tables, chairs, hutch/buffet combos; the living room sets included sofas, love seats, recliners and end tables.

Being a part of "Team National" has been a rewarding experience, but local residents Jenny and Ryan Chamberlin of Belleview are proud of being part of an organization that also rewards so many others.

"It's so great to be a part of something bigger and be with a company that is so dedicated to changing the lives of others," Ryan Chamberlin said.

"National Companies has always believed in building a stronger community and works hard to help so many," Jenny Chamberlin said.

Team National Factory Direct Vice President, Phil Chrysler agrees. "We are pleased to be in a position to be able to donate complete rooms of furniture to those less fortunate. Charitable donations are a main part of National Companies' philosophy of giving back."
