"A disaster is a threatening or occurring event of such destructive magnitude and force as to dislocate people, separate family members, damage or destroy homes, and injure or kill people. A disaster produces a range and level of immediate suffering and basic human needs that cannot be promptly or adequately addressed by the affected people, and impedes them from initiating and proceeding with their recovery efforts."

The American Red Cross is mandated by congress to be the premier organization to respond to disasters. However, the success of the Red Cross response and assistance is dependant on collaborating with other agencies who provide aid. The Mustard Seed is one of our key partners assisting those affected by disaster. The household furnishings provided by The Mustard Seed enable the disaster victims to start the process of rebuilding their lives.

The American Red Cross wishes to thank The Mustard Seed for their continued partnership in helping those affected by disaster.
